

Anywhere Wireless

System 10 Stack-Mount Digital High-Fidelity Wireless Systems

System 10 Stack-Mount is the original high-fidelity wireless system that works anywhere, in any situation, for anyone. Offering 24-bit, interference-free communication and plug-and-play operation, System 10 lets you set up quickly in any environment and work with confidence, knowing you'll enjoy continuously clear, natural sound with no dropouts. And there's no special technical know-how required to operate System 10. It's the wireless system that anyone can use anywhere.
