

Hear and be heard

ATUC-50 Digital Discussion System

No matter the scale or complexity of your communication needs, the ATUC-50 Digital Discussion System gives you reliable, crystal-clear speech reproduction from a feature-rich system that couldn't be simpler to set up and use. Offering plug-and-play functionality (the system's ATUC-50DU discussion units and ATUC-50INT interpretation units connect via standard category cable), 24-bit digital audio, four-track recording capability, remote web operation from a computer or tablet, and more, the ATUC-50 is an easy, cost-effective way to ensure that everyone is heard in every situation – from small meetings to conferences with up to 150 participants.
