Anywhere Wireless

System 10 PRO Digital High-Fidelity Wireless Systems

As the digital high-fidelity wireless system that works anywhere, in any situation, for anyone, System 10 PRO is the easy choice for 24-bit, interference-free communication. Featuring groundbreaking remote-mountable receiver units, four transmitter options, plug-and-play operation and the simultaneous use of up to 10 channels, System 10 PRO gives you the flexibility to work with confidence in any number of situations – from the concert stage to the boardroom, the classroom to the pulpit. System 10 PRO installs quickly and efficiently in any environment and requires no special technical know-how to operate. It truly is the wireless system for anywhere. audio-technica.com
