

Purity of Analog Sound

AT-LP3 Fully Automatic Belt-Drive Turntable

Offering the convenience of automatic operation with advanced features not typically found on automatic turntables, Audio-Technica's AT-LP3 takes your analog playback to the next level. Not only does this turntable include a 1/2" mount headshell with an AT91R Dual Moving Magnet cartridge, but it's also equipped with a switch that enables use of both moving magnet and moving coil cartridges. The AT-LP3 is just the latest in a diverse line of Audio-Technica turntables that also includes the AT-LP120-USB professional direct-drive turntable and various models (classic analog, USB and wireless) of the popular AT-LP60. audio-technica.com
