Packaging Your Audio-Technica Product

Please use at least 3 inches of padding all around the product for protection during shipment. We recommend you use a carrier that can track your shipment if you want to know the delivery status of the repair. Insurance is also recommended.

When shipping your turntable to Audio-Technica, please use the original packaging if possible. Also, to reduce the chance of shipping damage to your turntable, do not ship your platter, dust cover, or counterweight, and please wire-tie the tone arm in place to prevent movement during shipment.

Send product to:
